Internal Company Documentation — Fictional Test Data

This document contains fictional company policies and internal information created exclusively for testing the Company AI Assistant, RAG retrieval, tool calling, and agent workflows. All names, policies, ticket examples, and contact details are fictional.

1. Company Overview

NexaCore Solutions is a fictional software and technology company that provides cloud applications, business automation, data services, and technical support to small and medium-sized organizations.

Headquarters: Beirut, Lebanon

Founded: 2019

Employees: 86

Working hours: Monday–Friday, 9:00 AM–6:00 PM

Internal support hours: Monday–Friday, 8:00 AM–7:00 PM

2. Remote Work Policy

Employees may work remotely up to **3 days per week**. Remote work must be approved by the employee's direct manager before the remote day.

Employees should submit a remote-work request at least **2 business days in advance**. Emergency remote work may be approved by the manager when unexpected circumstances prevent the employee from working from the office.

Employees working remotely must remain reachable through the company's communication platform during normal working hours and must maintain a stable internet connection.

3. Vacation Policy

Full-time employees receive **18 paid vacation days per calendar year**. Vacation requests should normally be submitted at least **10 calendar days before** the planned start date.

Managers should review vacation requests within 3 business days. Vacation approval depends on staffing requirements and existing approved leave.

Employees should not book non-refundable travel arrangements until their vacation request has been approved.

4. Sick Leave Policy

Employees may take up to **10 paid sick days per calendar year**. If an employee is absent for more than 2 consecutive working days, the employee should provide appropriate supporting documentation to HR.

Employees should notify their manager as soon as reasonably possible when they cannot attend work because of illness.

5. IT Support Policy

Employees must create a support ticket for technical problems that require assistance from the IT team. Tickets should include a short title, a clear description of the problem, the affected device or application, and any relevant error message.

Critical incidents affecting multiple employees should be reported immediately through the internal support channel in addition to creating a ticket.

Standard IT tickets are normally reviewed within **4 business hours**. High-priority tickets are reviewed within **1 business hour** during support hours.

6. Information Security Policy

Employees must never share company passwords, authentication tokens, or private access keys with other employees through email, chat, or support tickets.

Company laptops must use a password or approved biometric authentication. Employees must lock their workstation whenever they leave it unattended.

Suspicious emails, unexpected login notifications, or suspected security incidents must be reported to the IT security team immediately.

7. Expense Policy

Business expenses above **\$100** require manager approval before purchase, unless the expense is an emergency operational expense.

Employees must submit expense claims within **30 calendar days** of the expense date and attach a valid receipt.

End of fictional internal documentation.
